Mr. N.C. Croome,
Vice-Pres., Mining Division,
Bralorne Resources Limited,
Suite 2910, Bow Valley Square 2,
Box 9060,
Calgary, Alberta T2P 2W4

Dear Tip:

Please find enclosed 2 prints of "Composite Plan - Exploration of '52' Vein-System & '22-77' F.W. Vein" pursuant to your Jan. 24/75 request.

The following comprise my current selection of major exploration possibilities or 'gambles' which you also requested that I furnish along with the enclosed map.

'77' Vein

- | | | |
|-----|---------------------------|--------------------------------|
| (a) | Between 14 and 18-levels, | and between X-secs 2E and 12E. |
| (b) | " 20 and 24 " | " " " 2E and 10E. |
| (c) | " 8 and 14 " | " " " 6E and 24E. |

'51'-F.W' Vein

- | | | |
|-----|---------------------------|----------------------------------|
| (a) | Above 10-level, | and between X-secs 12E and 26E. |
| (b) | Between 10 and 14-levels, | and between X-Secs. 16E and 24E. |

'51'Vein

- | | | |
|-----|---------------------------|---------------------------------|
| (a) | Between 16 and 20 levels, | and between X-Secs. 4E and 15E. |
|-----|---------------------------|---------------------------------|

I hope that some interesting intersection resulted from the scheduled set of short test-holes on 22-level.

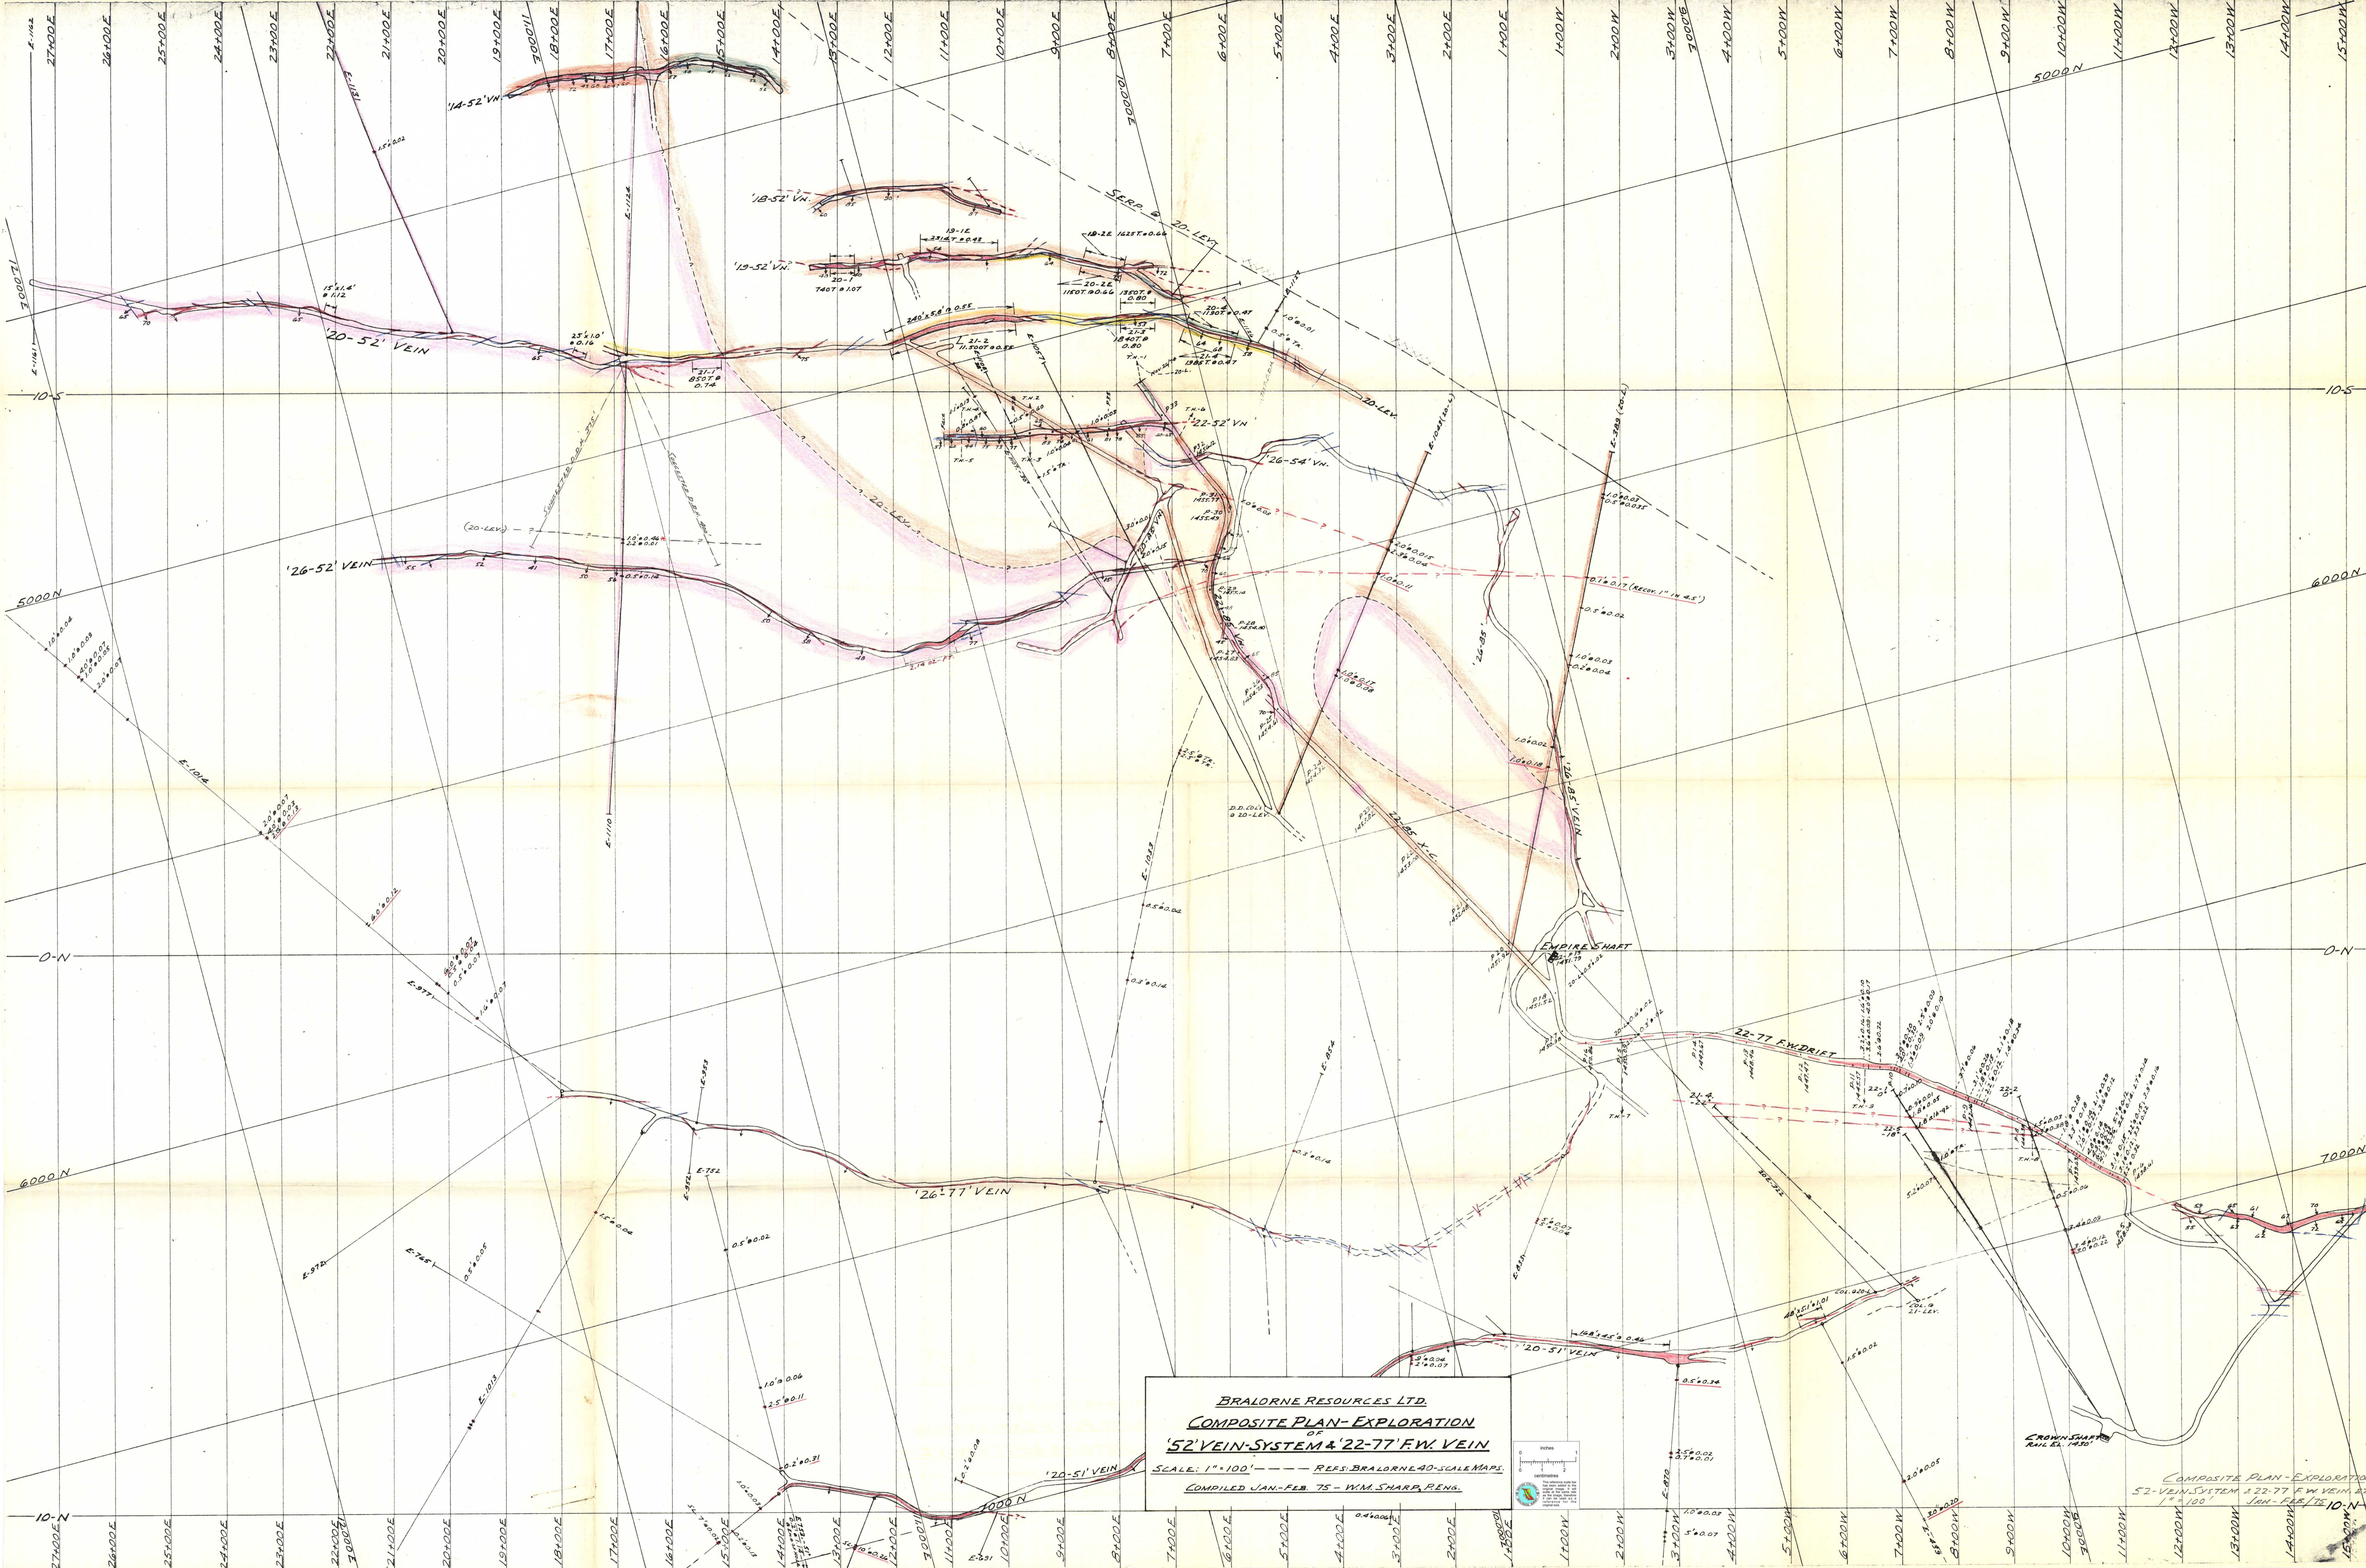

* Also, I plan to keep Bralorne in mind in regard to current programs on California and Arizona prospects.

With best regards,

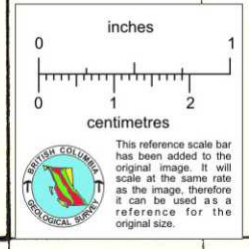

Yours sincerely,

(Signature)

W.M. Sharp, P.Eng.
