

Tobias Nickel

50:50 partner in Tobias  
he has done work

- 2 zone legislation - now okay

- Day election - still critica

Cu, Ni, Co

- main showing below

- 35-45 min. hike up to showing

- old gabros & diorite from Gary R. Heston

late 1980s Ni, Cu, PGEs anomalies  
high unit value  
Jim McDougall

Tri. ? or deformed Dev. ?

strike ~ 2-3 km long large zone + dramatic

by 10-100 mB - mafic intr.

amphibolite grade meta

meta Sicker Group rocks

subduction slab partially melted

sea-level high meta

high lower snell basalt

- 1 day from Tobias

- wants CA plus expenses

- his boat

- porph + skarn targets as well Battle L. gran skarn

- old report on Au Au-gz veins old work/hr

- high unit value Ni, Cu, Co, PGEs, Au

- str. sed. & soils only v. subtle Ni anomaly

- need to do mass map

- Sam Arnts old Tobias prospect

- Cominco 2 years work grid

mid-1980s & geochem
