MEMORANDUM

NOTE DE SERVICE

TO A I. Jonsson

FROM DE R. V. Kirkham

SUBJECT OBJET Kitsault Sr + Ba-rich Samples

SECURITY - CLASSIFICATION - DE SÉCURITÉ
OUR FILE - N / RÉFÉRENCE
YOUR FILE - V / RÉFÉRENCE
DATE July 11/89

KQ-86-30F, 30G, 30H and 30I are Sr-rich (\pm Ba?) samples for the Kit Property at Kitsault Lake and KQ-86-33A, 35(1) and 35(2) are ^{Ba-rich samples (\pm Ag)} from the Torbrit mine.

These samples can be crushed and ground completely for test work and for later use as standards.

Dec. 6, 1990.

Dear Dick,

Sorry about the delay — what can one expect from a Dick; either too soon or too late. (I don't think I'll get this one typed.)

Please find enclosed your rock (from KB9-11 @ 1338.5 feet), logs for KB9-6 Ext, 10 and 11, sections for the same, and geology maps for the Sault Claims (from Cominco bases) and the Trout claim. Assays for the Trout and Kits core are also included.

I am also including a sample from the Summit Lake showings for comparison to KB9-11 sample, just in case you don't have enough rocks already.

Whatever else there is to say can wait till you come out here on the 21st (if you make it.)

Cheers

Dave Tupper.
