Herein is the data gathered for the query faxed on Nov. 19, 1995. I am sending copies of the data through the mail later.

1. Virginia Pit (Copper Mountain District) Reserves: 13,600,000 tonnes  
 Grades: 0.4% Cu, 0.21 g/t Au

From minfile

163700  
 KPD NOV 24/95

2. McLeod Lake deposit: Reserves: 37.5 M tonnes  
 Grades: 0.44% Cu, 0.05% Mo.  
 Location: Quebec

note: Please disregard lat/long given in the D-P-D-111 list of Nov 20 edition which was given as British Columbia.

3. Moss Lake: Location: Ontario  
 Resource: 60 M tonnes  
 1.1 g/t Au?

4. Blondin and Douvray's lat/longs were taken from Kika's database; but the data are incorrect as they are placed at Memc district, southeast of Massifs du Nord where they should be. However lat/longs cannot be ascertained yet where they are. Articles indicate they are two separate deposits located in possibly the same district.

5. Andrew, R. L. (should be I. not I)... Mining Engineering, vol. 47, no. 1, Jan. 1995, p.33-38.

6. GSC Map 1064A: Geology, Whitesail Lake, Coast District, British Columbia, by S. Duffel, published 1959.

GSC Map 1143A: Geology, McQuesten, Yukon Territory, by Bostock, H.S., published 1964.

GSC Map 1147A: Geology, Keno Hill - Galena Hill Area, Yukon Territory by Boyle, R.W., published 1964 as accompanying map to Boyle, R.W. 1965: Geology,
