932

Pleistocene Recent
Tertiary basalts

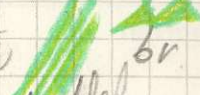

923 diabase & gabbro

522

schistose

910

andesite

pillow
lava

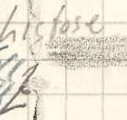

903

limestone

schistose

935 black

argillite slate
mudstone, shale

schistose

green
80195

S.S. - silst

929 pink

granite
to diorite
Coast Range

938

alteration zones
silicified, sericitized
pyritic carbonatization

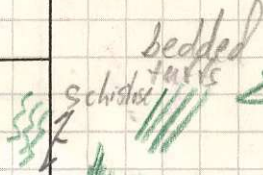

921

syenitic intrusion
generally composed
Hb. Plag. Porphyries

944

very coarse
diorite to granite
diorite

bedded
schistose

br. 600

S.S. Conglomerate
pillow lavas
basic volcanics

909

Caugite porphyrites, basalt(s)
metab. basic volcanics
Ch. schists amphibolite

942

felsitic
volc.

dacites
rhyolites
trachytes
latites
etc

Schist
bedded
