

SECTION A-A'

SECTION B-B'

LEGEND

TERTIARY

Granodiorite, quartz monzonite, and aplite (dyke scale exaggerated)

UPPER JURASSIC

BOWSER GROUP

Mudstone, siltstone, greywacke, conglomerate, coal, and hornfelsic equivalents

PRE-UPPER JURASSIC

Granodiorite

Porcelaneous felsite

Massive, spherulitic, and banded felsite

HAZELTON GROUP

Mainly intermediate pyroclastic rocks and hornfelsic and altered equivalents

Quartz-feldspar-rich lapilli tuff

Mainly massive, intermediate and basic volcanic rocks and hornfelsic and altered equivalents; some felsic units

Scale Miles

SYMBOLS

Geological boundary: defined, assumed

Bedding

Flow banding

Fault

Thrust fault: observed, concealed

Limit of molybdenite mineralization

Diamond-drill hole
