

802786

Property Report (R.V.K.)

Recorder -

Date - Jul. 7, 1970

Property or Mine Name - Alviija

Owner and Operator -

Metals -

Reserves (Published grades and tonnages) -

Location - 1. Prov. or Terr. - B.C.

2. Mining Division, Township, County, District, etc. -

3. N.T.S. - 103 I/9 Lat. - 54° 34' Long. - 128° 12'

Access -

History - 1. Exploration (dates, trenching, drilling, underground, geochem, geophys, geol., etc)

2. Production (dates)

3. Present status

References -

Geology 1. General Deposit Type (vein, stockwork, breccia pipe, fault zone, stratiform, massive replacement, etc - strike and dip)

2. Mineralogy - (zoned, crustiform layering, etc. - actual or relative %'s)

- primary

- secondary

3. Host Rocks (age, lithology, structure, metamorphism, alteration - % ore in contact with various rock units - fault and bedding strikes and dips, etc)

4. Regional Tectonic Setting

5. Age of Host Rocks, nearby Rocks, Ore & Metamorphism (palaeontological and radiometric) -

Property Report (R.V.K.)

Recorder -

Date - Jul. 7, 1970

Property or Mine Name - Native Mines

Owner and Operator -

Metals -

Reserves (Published grades and tonnages) -

Location - 1. Prov. or Terr. - BC.

2. Mining Division, Township, County, District, etc. -

3. N.T.S. - 103I/8 Lat. - 54° 27' Long. - 128° 9'

Access -

History - 1. Exploration (dates, trenching, drilling, underground, geochem, geophys, geol., etc)

2. Production (dates)

3. Present status

References -

Geology 1. General Deposit Type (vein, stockwork, breccia pipe, fault zone, stratiform, massive replacement, etc - strike and dip)

2. Mineralogy - (zoned, crustiform layering, etc. - actual or relative %'s)

- primary

- secondary

3. Host Rocks (age, lithology, structure, metamorphism, alteration - % ore in contact with various rock units - fault and bedding strikes and dips, etc.)

4. Regional Tectonic Setting -

5. Age of Host Rocks, nearby Rocks, Ore & Metamorphism (palaeontological and radiometric) -

6. Assay Data - (i.e., precise chemical information) -

7. Trace Element Data -

8. Silicate Analyses -

9. Isotope Data -

10. Miscellaneous -

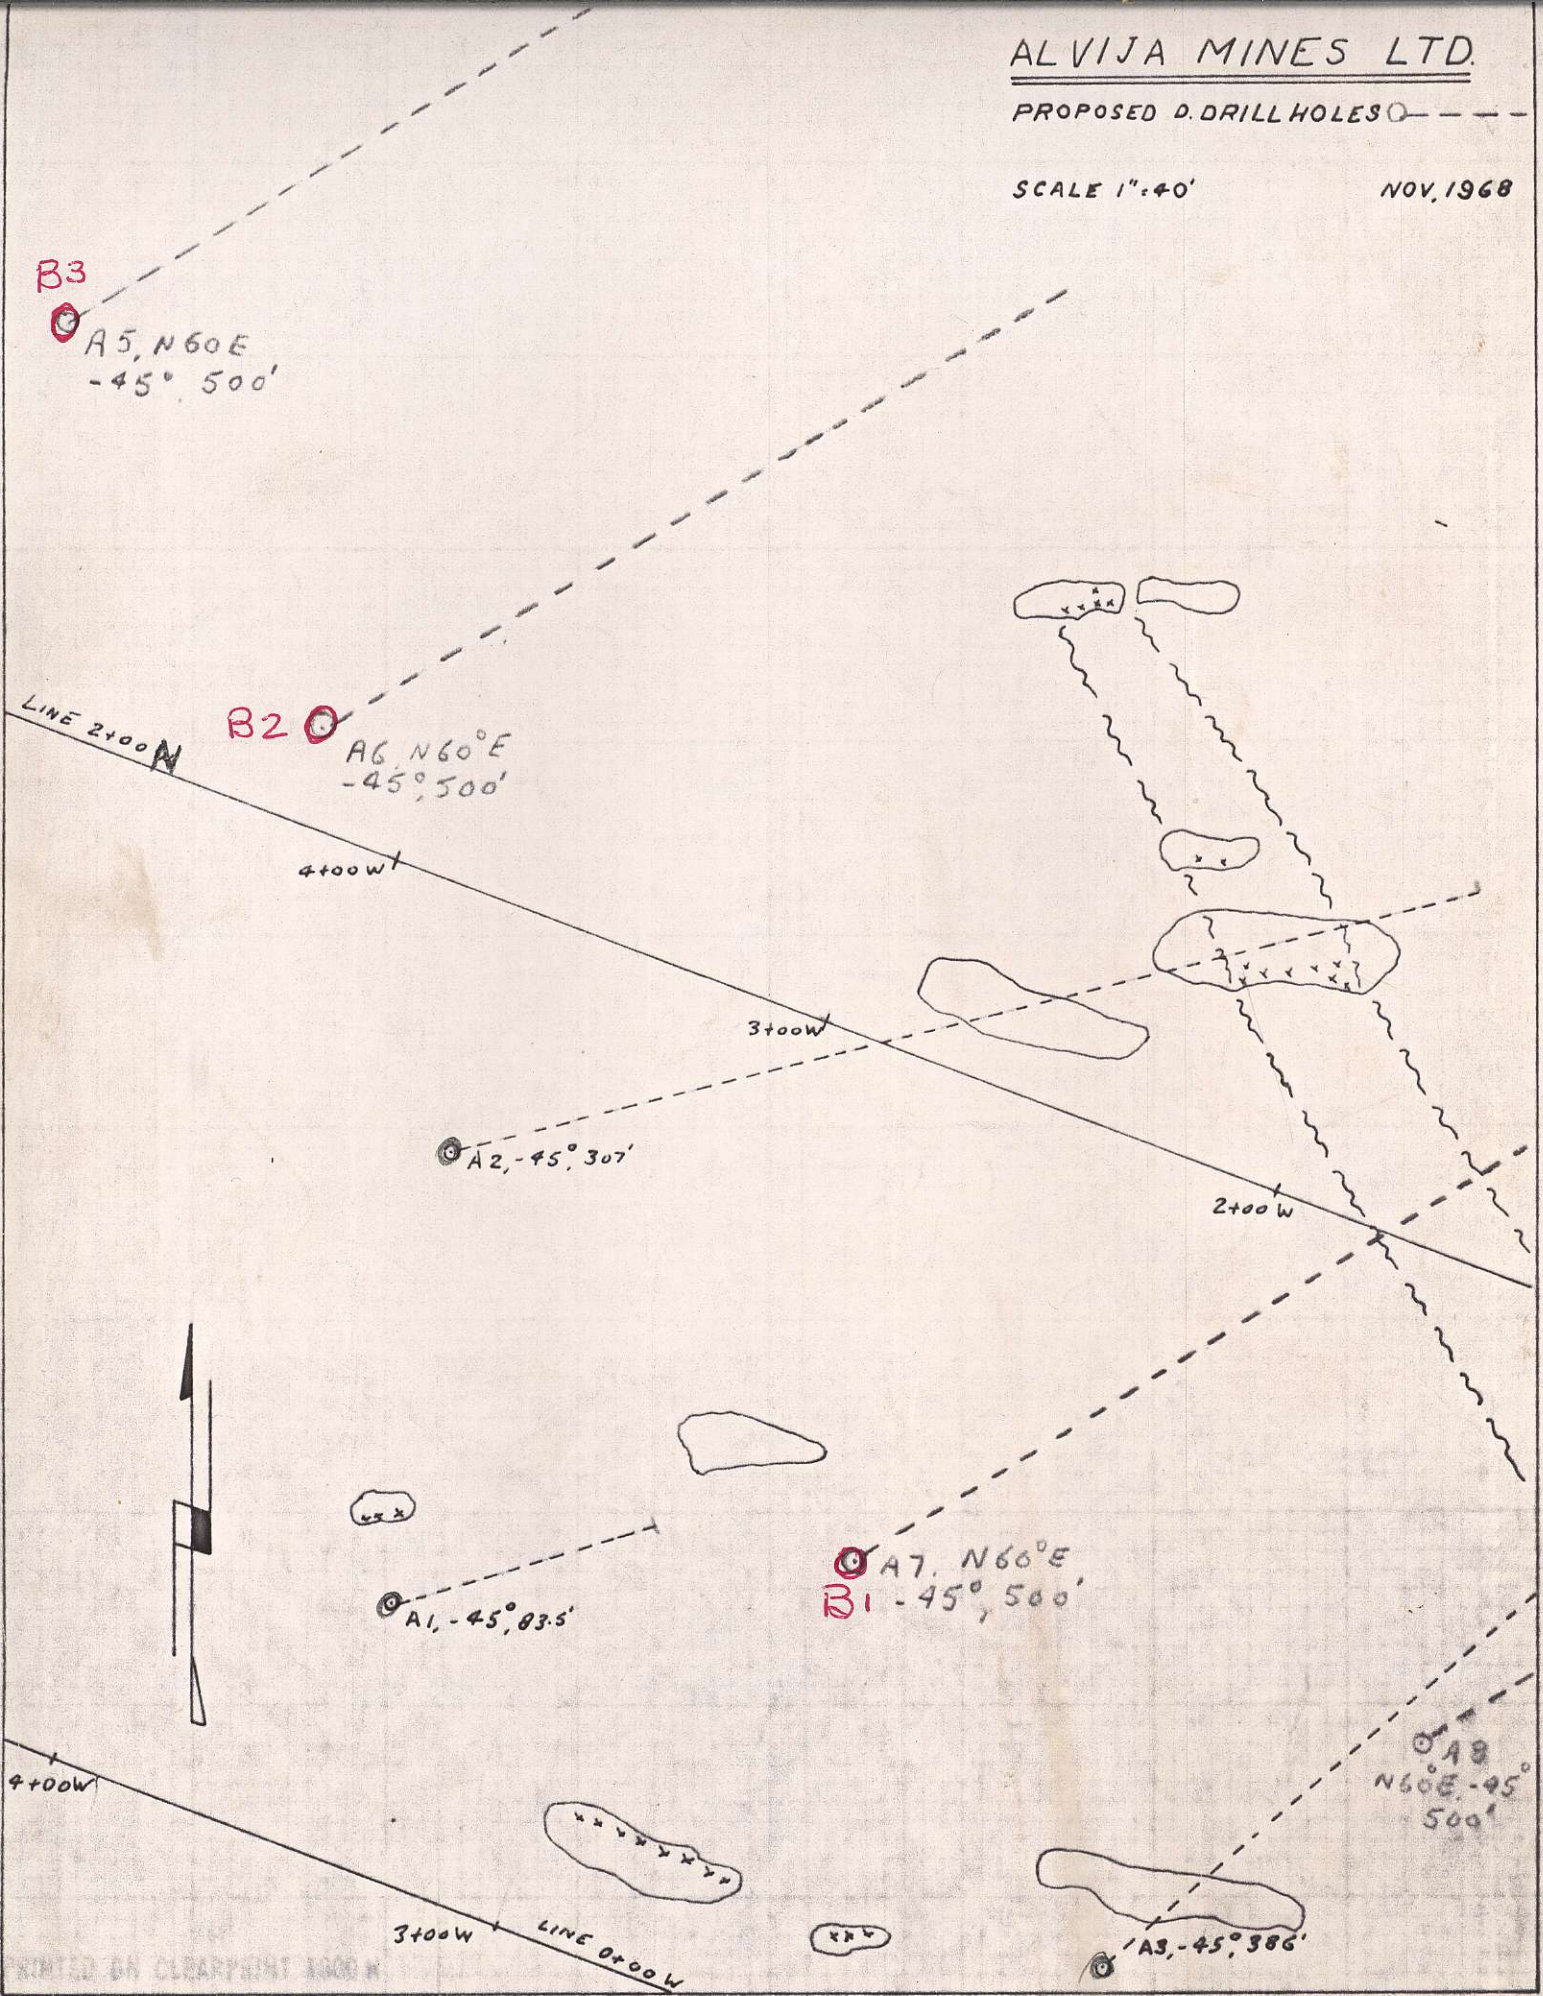

ALVIJA MINES LTD.

PROPOSED D. DRILL HOLES

SCALE 1"=40'

NOV, 1968

PRINTED ON CLEARPRINT 18000 W
