correct
address?

Dear Jerry (Ron + Don):

How does it feel to be a TV star? I saw you, Ron, Don and the Pez on Venture. You're the flunky that moves core boxes!

I remembered something for once! You wanted some literature at Pueblo Viejo or was it somebody else? In any event here it is, if you wanted it?

I enjoyed my visit very much and appreciate very much Calpine's hospitality (& Orequest's). I have discussed the core samples with Don Harris & Bruce Ballantyne & we have decided to do some reconnaissance mineralogy and lithochemistry on them. When we have some results I will send them to Chet & you. I would still like to obtain a sample of the "explosion breccia" with layered fine-grained hydrothermal quartz matrix (in hole #109?) if you can see one up.

Hope things are going well for you - time to get out your fur-lined jockstraps.

Best regards,
Rod Kirkham
