Richard,

Enclosed are copies of the 5 maps with changes indicated. Steve Roach (613-443-3824-Embrun) also indicated that he would bring the Brucejack Creek sheet up to date with 1994 Newhawk mapping. Please see that the changes are made and then the maps can be submitted for Open File release. \*keep the original forme plus 1 chronoflex copy & 3 paper copies of each (for me). Charlie, from George Plants Office, can determine proper company I.P.O. citations. Thanks again Rich. Rod
