RE: MURRAY'S POND

This is to inform you that I met with Lois Gardiner, a reasonably intelligent person, whose philosophy is in obvious conflict with ours with regard to her request for a donation of gravel bearing lands for park purposes.

Lois Gardiner is the recipient of 1-1/2 hours of philosophy on the need for business and in exchange, we learned about her need for parks.

In summary, Lois Gardiner understands our position. I told her our letter is our final word on the matter and the women understands our reasons for the negative decision previously sent to her in writing.
