Dear Sir:

The Board, at its meeting of Tuesday, May 11, 1982, received a presentation from Mrs. L. Gardener to retain Murray's Pond and the surrounding woodlands as an educational and recreational resource for the future.

Following further discussion, the Board again reviewed this matter at its meeting of May 25, 1982. The Board of School Trustees unanimously support the retention of this beautiful area for educational and recreational resources as a benefit, both for the school district and the community for future years.

On behalf of the Board of School Trustees, I have been requested to solicit your support on behalf of this most worthy project. Your very serious consideration would be deeply appreciated, both by the School District and community.

Yours very truly,

K. G. Purse, Chairman,
Board of School Trustees.

KGP/lm
