- Quartz veins - Rhyolite to Diabase
(Common late stock in fine grained)
- Some Epandorite - Quartz diorite
(Porphyry stock)
- Brown feldspar porphyry & fine grained equivalent
- Fine grained rhyolite dikes & sills (May be related to fine grain porphyry)
- Green Horn Rocks
- (a) Grey & black phyllite, argillite, quartzite (undifferentiated)
- (b) Laminated & tabular argillite
- (c) Laminated sedimentary rocks
(light colored laminae may be full on interior exposure)
- Quartz Veins
- Schistosity
- Basement surface
- Outcrop
- E.D. Flow
- No. 1 - Molybdenite
- S - Sulfide
- Py - Pyrite
- P - Pyrochlore
- Ch - Chlorite
- M - Muscovite

Upland - above feet
