Dear Corbey,

This is to confirm our telephone conversation this afternoon that Cyprus Anvil will undertake a property examination on the old Beveley Property or Wazi Lake Property held by Suzie Mining.

Please contact our Dr. Glenn Simpson when the property is clear of snow and available for inspection. We understand that sufficient core samples are present in Vancouver for a preliminary inspection of textural evidence related to the deposit. This information has been conveyed to Dr. Simpson and we will proceed accordingly.

Yours truly,
