MR. RAE G. JURY
ALRAE ENGINEERING LTD.
844 WEST HASTINGS STREET
VANCOUVER, B.C.

DEAR RAE:

ENCLOSED ARE THE CARIBOO MINELANDS MAPS WHICH I HAVE HAD ALL SUMMER.

I HAVE MARKED ON THE WORK SHEET PROFILES OF THE A.B.E.M. GUN WORK THE LOCATIONS OF THE INDICATED CONDUCTORS, AND I HAVE ALSO MARKED THESE LOCATIONS IN PLAN ON ONE OF THE EM 16 PLANS.

YOU WILL SEE THAT SEVERAL CONDUCTORS ARE INDICATED, AND IT IS ALSO CLEAR THAT THESE CONDUCTORS HAVE LITTLE RELATIONSHIP TO THE EM 16 RESULTS.

WHICH OF THE TWO DIFFERING RESULTS ARE THE MOST LIKELY TO BE CORRECT I DO NOT KNOW. FROM THE GEOPHYSICAL RESULTS ALONE I DON'T BELIEVE THAT THIS CAN BE DECIDED UPON.

PERHAPS YOUR DRILLING RESULTS TO DATE CAN HELP TO ISOLATE THE VALID RESULTS FROM THOSE WHICH FOR ONE REASON OR ANOTHER ARE NOT MEANINGFUL.

SINCE I HAVE HAD NO CONTACT WITH THE FIELD WORK, IT IS DIFFICULT FOR ME TO PASS JUDGMENT ON THIS.

SHOULD YOU WISH TO SEND ALONG SOME OF THE GEOLOGICAL DATA I WILL TRY TO DISCRIMINATE THE VARYING SETS OF GEOPHYSICAL RESULTS, ONE FROM THE OTHER.

FOR THE MOMENT, THE A.B.E.M. CONDUCTOR MARKED "A" ON THE PLAN SEEMS TO BE THE MOST INTERESTING ONE.

ALL BEST WISHES,
