

On map 127M — a lot of new staking
on NE side of Morrison L. on Scorched Hill =

Alpha IV Group 1-36?

Spark 37-56

Joy 1-60.

& at S. end of Nakiullrak L.

Bonaparte R Map Sheet.

Examined Wed Feb 26
appt to see on Tues Mar 4

Map shows granitic rocks of 2 major ages

① 190 my Takonkane
Thuya

② 100 my Raft
Baldie

Two aspects of economic interests

(A) — older intrusives are of Gneiss type & may therefore
be correlated with the intrusives of HV.

(B) — in this area it seems to be the younger intrusives
that are associated with sulfide mineralization according
to R.B. Campbell.
