INTER OFFICE MEMO

CYPRUS EXPLORATION CORPORATION LTD.
VANCOUVER OFFICE

Date: 3rd January, 1969.

To: Mr. D.W. Tully
From: Mr. J.B.P. Sawyer
Subject: W. Inverarity Geochemical Samples

I have made calculations of Threshold values for copper, Molybdenum and silver, on the soil sample results from Coast Eldridge on the subject samples. These values are as follows:-

Copper	-	82 p.p.m.
Molybdenum	-	11 p.p.m.
Silver	-	4 p.p.m.

Inspection of the results shows that only one sample is anomalous in copper and that there are no samples carrying anomalous amounts of Molybdenum or silver.
