330 MARINE BUILDING
355 BURRARD STREET
VANCOUVER 1, B.C.MEMO TO: Mr. R. E. G. Davis
Mr. E. O. Chisholm
Mr. T. Sadlier-Brown

FROM: C. L. Smith

DATE: March 9, 1967.

SUBJECT: Risby Progress in Powell River Area

Risby recently reported the following:

- (1) The "very large" copper-moly prospect of Mr. Herb Thompson's mentioned in memo of Feb. 23 turned out to consist of 3 veins of maximum width 18 inches from which large area of Cu stain emanated.
- (2) Mr. Thompson accompanied Risby to another of his groups. This one consists of 16 claims lying 3 miles south of the Bob Michaels' property mentioned earlier - this property, Michaels', and the King Billiken apparently lie on strike. The property consists of a 15 - 20 foot exposure of what Risby calls a 10 foot wide porphyry dyke intruding massive granite. Contains fracture fillings of Cu, Ag, Mo. One assay reported as 3.5% Cu, 1.5 oz. Ag. He recommended an examination.
- (3) Bob Michaels has evidently not made a deal on his porphyry dyke (70 feet wide with 2 - 3% Cu and 1% Mo) and I recommended that Risby express our interest in his property and attempt to arrange a meeting with Tim Sadlier-Brown who will be going up March 12.
- (4) Nothing new has been found on the King Billiken group. Tim will give Risby statement regarding property this week.
- (5) Risby was informed of E. O. Chisholm's recommendation that he find out whatever possible about Noranda's drilling venture.

- (6) Tim plans to make an appraisal of Thompson's 16 claim group, inspect Michaels group, meet with Michaels, make decision re King Billiken group, and direct Risby in further prospecting.
