INTER OFFICE MEMO

CYPRUS EXPLORATION CORPORATION LTD.
VANCOUVER OFFICE

Date: January 22, 1969

To: Mr. Donald W. Tully
From: Mr. J. B. P. Sawyer
Subject: EUREKA PEAK PROSPECT

I have discussed with Bill Bacon his report on the Eureka Peak property submitted to us by Rapid River Resources. I find that the report is based almost wholly on the data furnished to us by Eric Scholtes. I had hoped that some further study would have been made of their data presently held by Chapman, Wood and Griswold which has never really been compiled. However, in the light of the recently published work on that area (G.S.C. Report of Activities, 1968) and of Bill's remarks concerning similar mineralization at other places in the Cariboo, I think his general conclusions are valid. In view of this, with your approval, I will return the data to Howard Travis of Rapid River Resources, and advise him that we will not be able to undertake any further work on this property.

Mr. Eric Scholtes,
P.O. Box 1731
Williams Lake, B.C.

Dear Mr. Scholtes:

I am returning herewith your copy of the Summary Report by Mel Hurd on the Eureka project which you kindly lent me last week. I have made a copy of this for further study here. Also enclosed please find your original I.P. plot and a copy of Jim Coates' report which I got from Howard Travis. I have made copies of the maps which you also lent me, and will return the originals to you under separate cover within the next few days.

I have not yet completed my study and evaluations of this project, but hope to do so shortly and reach a decision on it one way or the other.

Thank you for devoting your time to showing me the property on August 25th. We appreciate the opportunity to consider this prospect.

Yours very truly,

CYPRUS EXPLORATION CORPORATION, LTD.
