Mr. Louis Ezelyk
~~Belvedere Motor Hotel~~ *Box 288*
 WATSON LAKE, Y. T.

Dear Sir:

Thank you for submitting your ACE property to us for consideration.

It is impossible to form any judgement based on the information you have submitted. The copper assays indicated are excellent, but can only be judged if further information, such as location and widths, is available. It would be most useful if you could obtain whatever report and additional maps resulted from Cassiar's work on the property. If we had this additional information, we could be most interested in examining the property this summer... and any financial agreement would be contingent following this examination.

It appears from your letter as though you are interested in making a deal very quickly; in which case we would not be able to proceed further.

We have made copies of the maps and assay certificates you submitted, in case the property is still available for examination this summer. The originals are enclosed.

Thank you again,

Yours truly,
 ATLAS EXPLORATIONS LIMITED (NPL)

R. E. G. Davis

Dear Mr. Braak,

Enclosed please find assay reports & location maps on our property of which we have returns from Cassio Roberts Coy. a total of 104 claims of which settlement standing is good for 2 years.

I feel that Cassios have not done very much in the line of evaluation except for a little trenching and due to excessive snow and bad weather this was not done.

So if you look over this information and are interested please let me know as soon as possible as I have several interested parties that I am currently dealing with.

P.S.

Please return enclosed data if not interested

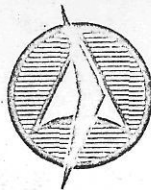

Best Regards

Louis Ezelek
