

Preliminary Report of Property ExaminationProperty Name Kaza Copper Principal Metals CuCompany Name Kaza Copper Minesand Address 1214 Eastview Road,North Vancouver, B.C. Ph. 988-4944Vendor Bob TaitLocation About 4 miles southwest from the south end of Kaza Lake.Recording Office Smithers. B.C.Access Float plane to Kaza Lake, then jeep to prospect

Exploration record: including underground workings, drilling, trenching, geology, geophysics, geochem.	Year	Description	Amount
	1969	Diamond drilling	4000 feet
	1969	Stripping, trenching. no other work	2000 feet.

Geology, including:  
Mineralization  
Widths  
Mode of occurrence  
Country rock  
Structure

Area underlain by andesite. Intense gossan throughout  
Stripped area. Chalcopyrite and quartz in fissure  
veins from a few inches to about 10 ft. wide.  
Strike is about N20W, dip 70E.

Assays

Sample	Width	Description	Au	Ag	Cu	Pb	Zn	MoS <sub>2</sub>	WO <sub>3</sub>
9111	10'	Chip from vein			0.88				

Possible Deals Property is available for a work commitment.

Conclusions: Kaza and Northstar may be part of a significant copper  
district; however no meaningful work has been done on either  
property. It would be expensive to proceed with work in this  
area. There appears to be a significant absence of intrusive  
rocks.

Recommendations No further action, but will keep in touch with Tait  
pending outcome of current work.
