Dear Sirs:

Re: Sastex Claim Block - Siwash Creek Area, B.C.

Thank you for your letter of November 15th indicating the availability of the above claims. As you may know, Cyprus has relinquished its interest on the adjacent property after carrying out a fairly detailed exploration program. However, we do have some interest and a good deal of information on the general area. There seems a good possibility that either myself or Dr. Carew McFall will be in Calgary in the near future and we would welcome the opportunity to inspect the Sastex data. I will inform you of the date of a visit in due course and perhaps we can arrange a meeting at your convenience.

Very truly yours,
