

SCALE: 1" = 400 FT.

TABLE OF FORMATIONS

Formation	Description	Color/Pattern
Early Tertiary	Rhyolite flow or sill	928
Kasberg Intrusions	Porphyritic acid dikes	929
	of various types	930
Paleocene	Medium to coarse grained buff sandstone	931
	Polymictic conglomerate with quartz and granite cobbles	932
Susut Formation	Chert pebble conglomerate	933
	Fossiliferous, limy sandstone	934
Upper Triassic and Jurassic	Massive dark brown siltstone	935
	Fossiliferous limestone lenses within units 1a and 1c	936
Mesozoic	Takla Formation	937
	Pyroclastic breccias and crystal tuffs	938
Mesozoic	Feldspar porphyry	939
	Aphanitic to fine-grained tuff or andesite	940
Mesozoic	Hornblende porphyry	941
	andesite	942
