

# KERR ADDISON MINES LIMITED

(FOR INTER-OFFICE USE ONLY)

OCT 19 1970

103P/11

820130

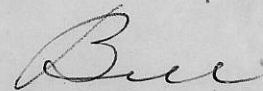

To P. M. Kavanagh From W. M. Sirola  
Subject Kinskuch Lake Option Date Oct. 16/70

The results of the diamond drilling on this property are such that we should give the owners, James S. Falconer, Gunn and Inga Fiva, formal notice of termination of option.

D.D.H. #1 was terminated after penetrating 46 feet of bedrock. This core contained negligible copper values.

D.D.H. #2 drilled a total distance of 557 feet in bedrock. The largest continuous mineralized section was from 195 feet to 325 feet, or 130 feet of 0.233% Cu. Another section from 555 feet to 625 feet averaged 0.28% Cu. While these results justified the effort made, the grade was patently too low for that particular environment.

The next payment in the option agreement is dated December 1, 1970.

W. M. Sirola.
