To D.A. Lowrie

From W.M. Sirola

Subject Lizard Head Project - IP Survey

Date 21 July 1980

Herewith an Agreement between C.A. Ager & Associates and Kerr Addison Mines for 20 kilometers of IP work on the Lizard Head Property.

We decided on IP work because of the lack of outcrop and because of some anomalous values both in the silts and in the soils. This work will proceed in the near future.

Line cutting was contracted to Amex Exploration Services of Kamloops and this work is completed.

This is a moly prospect - possible disseminated sulphide deposit.

A handwritten signature in cursive script, appearing to read 'W.M. Sirola'.

RE: Lizard Head Property I.P. Survey

Dear Bill

This letter will serve to confirm our bid proposal for the induced polarization work over your Lizard Head property, Moira Lake area, B.C. as follows:

I.P. Specifications

1. Cut and picketed grid lines provided by Kerr Addison
2. 20 line kilometers (approx) of survey work at 100 meter station intervals
3. Dipole-dipole array, $a=100$ m, $n=2$, frequency domain (0.3-10 hz)
4. Pfe and apparent resistivity maps
5. Detailing of anomalous zones with varying n and/or a values
6. Field and final maps with pseudosections
7. Report with interpretation

Cost Proposal

1. Items 2 through 7 above, including mobilization/demobilization costs, room and board, on site transportation, field personnel and equipment..... \$675/km
2. 1 km = 1000 meters of data at one 'n' spacing
(no extra charges are made for end dipole lengths)

Additional Notes

1. The above bid is all inclusive and is based on the assumption of access to the property by road with a maximum of 1 mile walk from the road to the property along cut and/or open trail.
2. Any anomalies deemed important will be detailed after completion of the entire grid at the survey specifications.

page 2

3. Our IP crew will be available to do the work in late June or early July, with final report in your hands by July 31, 1980.

If you are in agreement with the above proposal, please sign in the appropriate space below and return one copy to our office. We appreciate the opportunity to offer our services and look forward to performing the work for you.

Best regards,

AGER, BERRETTA & ASSOCIATES INC.

Mauro G. Berretta, MSc
Geophysicist
