44 King St. West,
Toronto 1, Ont.

Dear Bill: Re: Comet Industries, Etal.

I was with Jack Cowhurst yesterday and now have this preliminary memorandum, and maps. A second memo was mailed to me and should have it in the mail today which gives assays.

I asked Jack to mail you all the data direct as this would speed mailing same by at least a day.

Bill Wood the party who I was in touch with by phone was at the property yesterday. I am interested to have Jack and myself see the assays and plan.

J. P. DOLAN

Bill as I learn the companies involved are all in the same office with interlocking interests and at this stage I would not say anything very definite on the matter.

Should the drill results prove to be of importance this is the no. 1 stage.

I understand from Bill Wood they have some 3.5 million dollars and intend to do the drilling with the company or companies funds.

I suggested to Jack Crowhurst that he send you along a duplicate set of maps plus the data.

Will obtain further data and forward same to you, and in the meantime you will have some sort of a base to pivot from.

Thanks for returning my phone call of last week.
Kindest regards,
J.P.D.
