North west Power Copper-silver:

The owners, Turnquist and McLennan are staking sixteen more claims, then will offer it for examination. This prospect was incorrectly referred to as a copper-nickel find, my letter, June 13th. A copy of the assay certificate is attached.

WNR

Dick Group of 8 Claims.

A check of the location of this group indicates the claims cover the Albert #3 & #4 mineral claims owned by P.A. Holstrom. the owner states there are no posts along the West shore of the White River with tags installed at the location line of the Albert claims. The samples do not look interesting. *ASSAYS #1 - Ni 0.42 #2 - Ni 0.15 #3 - Ni 0.32*

Reports:

Summarized the ideas I have on the Quill Ck ground and forwarded a sketch of two proposals to you last night. Please ask Walter to dress up the sketches, which are traces of the 500 Scale-1955 map of the Claims and return prints if either of the proposals are acceptable.

General:

Newmont are started drilling with one machine on their Wasson Lake ground. Bic Exploration have set up a base-camp at Sawmill Lake out of Telegraph Ck. Expect to visit Canalask this week.

TURNQUIST

Dear Rod,

With reference to the letter of June 15th, the Turnquist samples look interesting. Will he give us a look at the show first?

The Dick group of claims do not appear important. We still own the Albert claims and he sounds like the usual type of Chiseler. You might sell our Albert claims to Canalask, also the Hope if they are interested. We will let them come open before long. See if Smokey Christianson is interested in having them for a start.

Best Regards,

E. O. CHISHOLM.

Dear Bern:

The following is further to my letter on June 11th, re the Dick Group of mineral claims staked by John Holmstrom.

The claims are overstaked on ground that PA owns or owned at the time Holmstrom staked. His showings which are not interesting are on a claim that is owned and was staked by Ted Chisholm for PA.

I feel quite safe in saying that there is no further need of anyone interesting themselves in the Dick Group. I have told Holmstrom we are not interested.

Now, as a return favor, would you find out if Spud "eustis" Bethsaida property is on the market?. There was some talk this spring that he was financing the development himself. However, since that time I have heard that he may be open to a deal.

Any inquiry should be a discreet one because Spud was swinging an axe in the general direction of Prospectors-Airways this spring and may not have cooled off yet.

Best regards,

Yours very truly,

Roderick Macrae
