Attention: Manager - Property Acquisitions

Dear Sir:

Re: Mineral Claims Available - 93L/1W

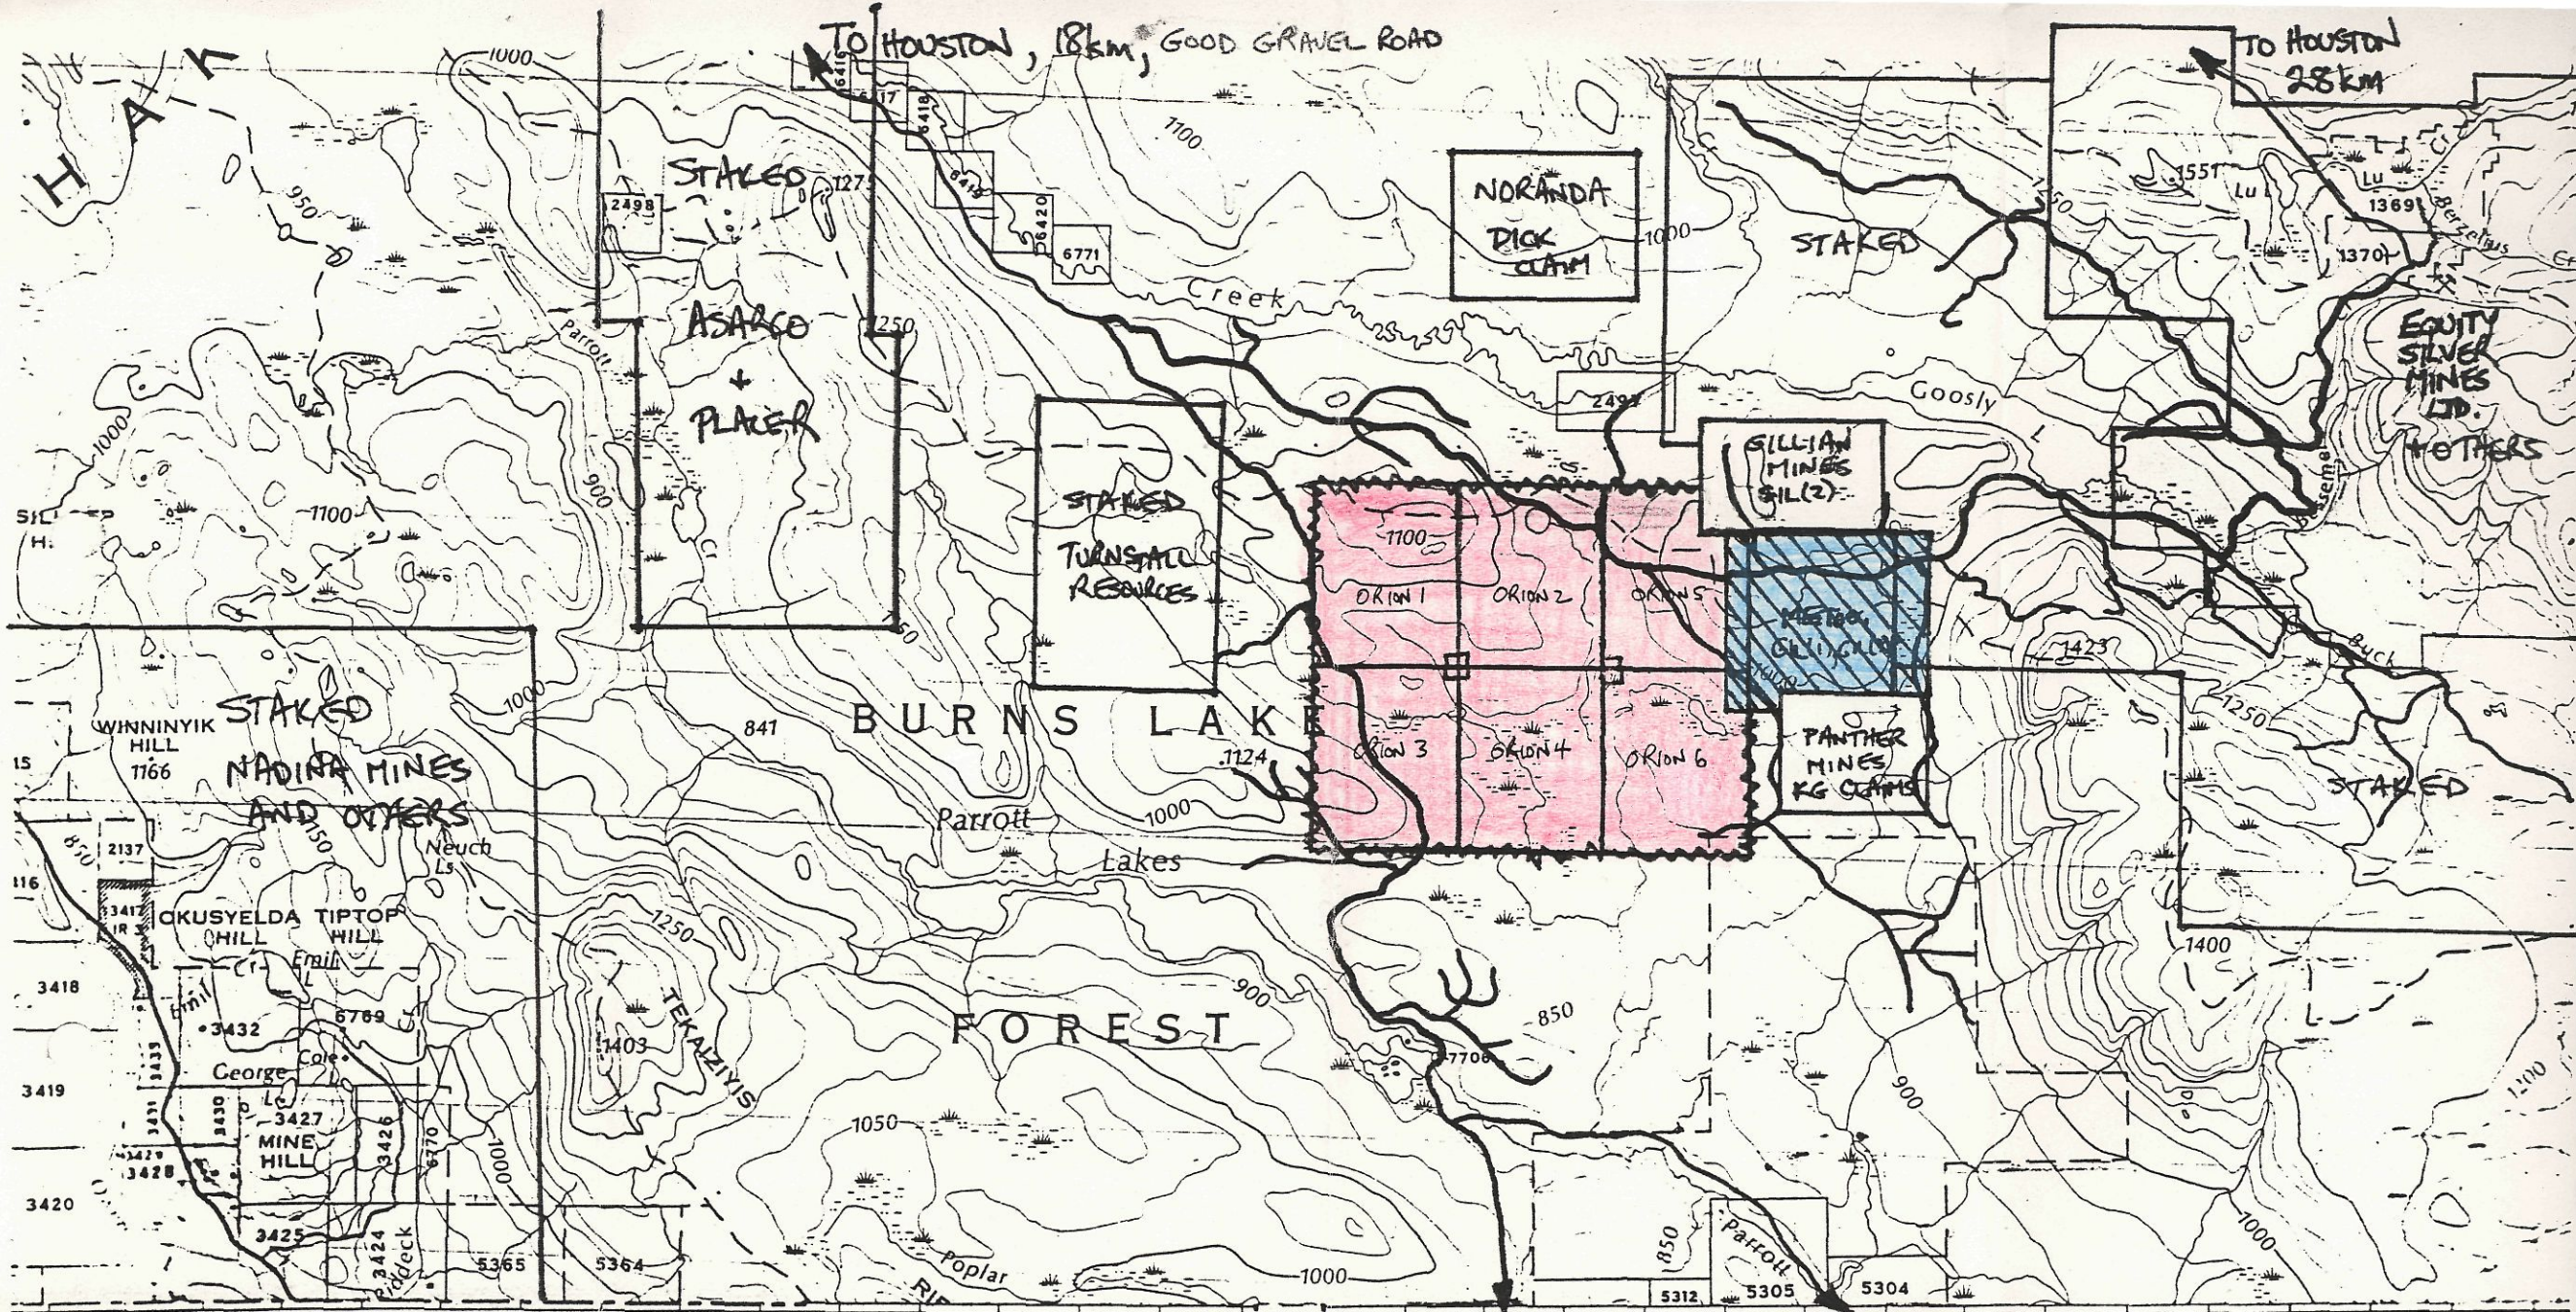

I have available for option 120 units of ground located southwest of Equity's open pit silver mine near Houston, B.C.. The property has been subjected to limited exploration by previous owners and the geology is favourable for the location of another Equity type deposit. Access is by good gravel roads which cut through the north and west claim boundaries.

If you have any interest in property in this area please advise by return mail and I will provide more information.

Yours truly,

Eric A. Shaede, Ph.D.
Prospector

- Worth a look at data.
"Equity Mine Sequence (L) rocks etc on East side of Shaede's block and Intrusion (j) on Gillian's ground to East.
- Gillian's mineralization, that I have seen in core + in etc is in a shear in phyllite. Not like Equity.
JAC 27/6/85

CLAMS FOR OPTION : ORION (1) → (6) INCL RECORD #'S 6727 → 6732
 120 UNITS (LESS OVERSTAKED PORTION)
 RECORDED OCT. 24, 1984

Scale 1:100 000
