COPY

August 6th, 1963.

Mr. Isaac Shulman,
Mesilinka Syndicate,
404 Standard Building,
510 West Hastings Street,
Vancouver 2, British Columbia.

Dear Ike:

Although we did not complete any agreement with respect to the Lay Group in the Aiken Lake District, British Columbia, we wish to advise you formally that our interest in the situation has ceased, and that the results of an examination which Bill Sirola made are available for you to see in his office. I would summarize the assay results of his sampling by saying that of 18 chip samples which he took, there was only one gold assay (0.22) higher than 0.02 oz. and only two silver assays (1.5 and 7.9) higher than 1 oz. Enclosed is a copy of the assay report.

We are writing a similar letter to Mr. Bill McGowan of Canusa Mines Limited.

I am enclosing the photos of the Lay Group which you loaned me when I was in Vancouver in June.

Yours sincerely,
KERR-ADDISON GOLD MINES LIMITED

Paul M. Kavanagh
Chief Geologist - Exploration
