Dear A. Davidson:

I have a property in the Whitesail area (93 E/6) that needs a home. Its an 80 unit block called Coles I-IV with assessment reports 12666, 12802, 13866, 16677 & 17962. The system is epithermal with 12 showings hosted in Hazelton Group lapilli tuffs and has anomalous gold up to 24,000 ppb.

Also I would like to know if you would be interested in running some samples from my prospecting projects this summer.

I look forward to hearing from you regarding these matters.

Sincerely,

Brian Dahl
