Aut Place

The new mercury discovery along the Pinchi Lake fault zone recently made by the Rottacker brothers of Pinchi Lake fame has been optioned by Canadian Explorations Limited at very substantial prices. I understand that a cash downpayment of \$50,000 has been made at the signing of the documents, with the total purchase price representing a substantial further payment, plus a considerable share interest to the vendors in a new company to be formed within a specified time. I further understand that the grade of the discovery is fairly good, similar to that obtained at the Pinchi Lake mine of the Consolidated Mining & Smelting Company Limited.
