RE: VIDE DEPOSIT

- JIM picked up following info. from Dunc Heddle at Cominco today.
- results to date not too encouraging but they plan some further drilling in 1978.
- have some problems with land status - some farmers with title prior to 1893 retain the mineral rights.

BDS.

- Cominco staff in Cranbrook say surface rights owned by Johnson (farmer ties on to w. side of Hoss farm)
  - Johnson says he has all mineral rights, Cominco says he only has coal.
  - until settled, no further work (no geol, geophy, or geochem done yet). although if settled will work in 1978.
  - Johnson says will use shotgun! wife more reasonable
- BDS - May<sup>27</sup>/78.

VINE

PROPERTY STATUS

CB 1990

Originally a wholly owned Cominco property

Cominco drilled (vein? or perhaps Sullivan Time nearby)

VINE PROPERTY NOW UNDER OPTION  
TO KOKANEE EXPLORATIONS LTD (KEL)

KEL CAN EARN 97% Net Revenue Interest  
100% WORKING INTEREST

subject to a 3% Net Smelter Royalty

By Spending \$1,000,000 on Expl'n  
by Dec 31 /91

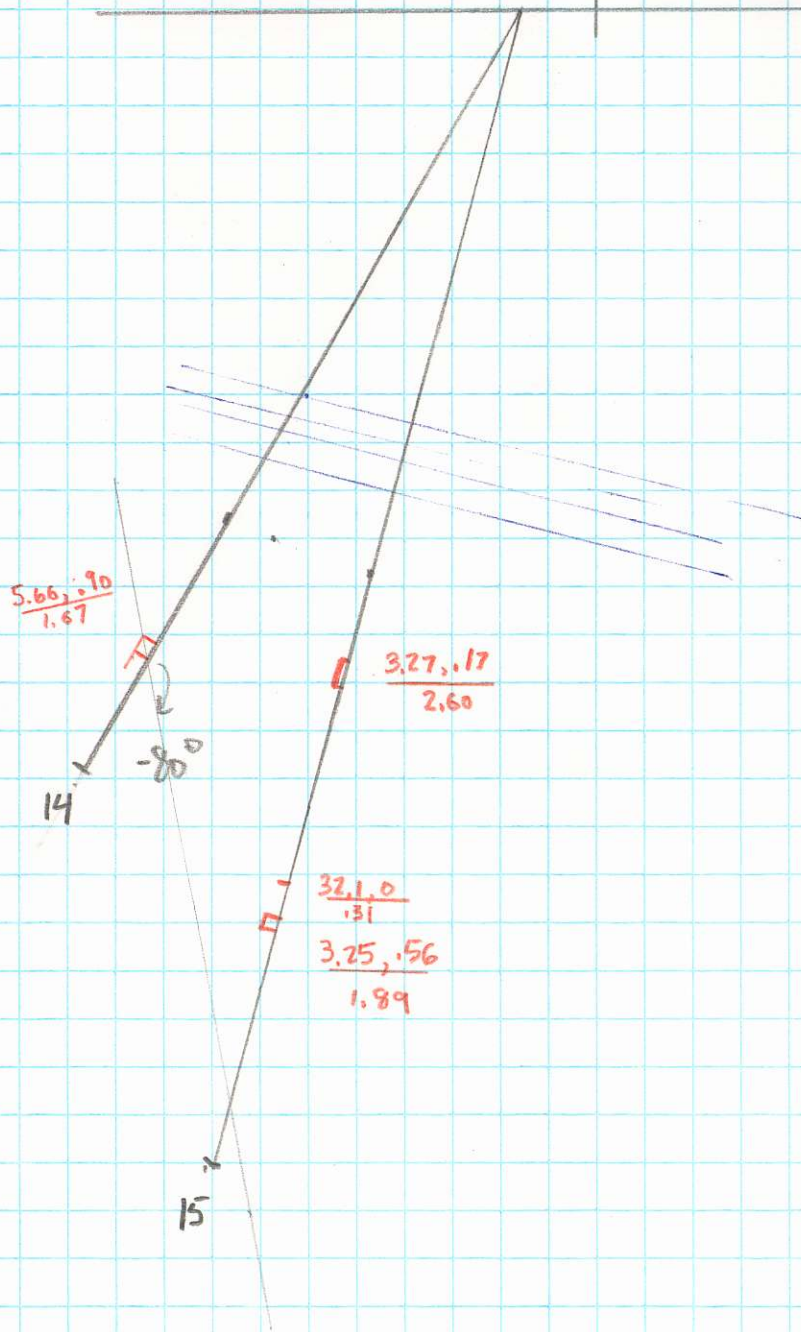

\* Cominco has the right to back in up  
to 60% interest under "certain circumstances"
