

1112 West Pender, Vancouver, B.C.

## INTER-OFFICE MEMORANDUM

DATE: May 2, 1978

TO: JJM

COPIES TO: AMC/WDH, Delta

FROM: B.D.Simmons

SUBJECT: MOYIE AREA, SE BC.

Enclosed is a preliminary report on the ST.Eugene Moyie property. The contents of the report were discussed verbally by WDH/JJM/DHB/ILE and BDS on April 26. The following decisions were made:

- (1) A project will be initiated to assess the potential of the area south of Moyie with emphasis on "Sullivan-type" targets. Field Work will be planned for 1978.
- (2) The project will gradually evolve to include parts of Idaho and Montana. The project area will be roughly bounded on the south by the Coeur d'Alene district. During 1978, all available US data will be collected and compiled. The project will be a "lead-in" for other areas in the northwestern USA.
- (3) The potential of the ST.Eugene/Cominco joint venture property is recognized but specific proposals will be deferred until at least some regional work is completed.
- (4) All charges will be accumulated under existing code PN 174 (southern B.C. prospects).

B.D.Simmons
