VICTORY PROPERTY

A total of 465.5 meters of diamond drilling was completed during the month comprising four holes:

Hole V-5; L4+00mE/9+75mN, -50, 152.7m; carbonitized mafic tuffs and graphitic sediments (target conductor).

Hole V-6; L0+15mE/1+80mN, -50, 152.7m; interbedded argillites and mafic tuffs; locally sericitic.

Hole V-7; L4+00mW/6+90mN, -50, 110.2m; hole abandoned--did not reach bedrock; semi-consolidated calcrete till.

Hole V-8; L4+00mW/8+180mN, -50, 70.4m; hole abandoned--did not reach bedrock; semi-consolidated calcrete till.
