On July 26th, Isaac Shulman telephoned to say that some very encouraging results were being obtained at Arlington Mines' property at Slocan City. Shulman is on Arlington's Board.

Mr. Bert Nesbitt, who is President of Arlington, brought me a report dated June 29th, 1965, written by Mr. F.J. Hemsworth, and that report is enclosed with this memorandum. I have read the report briefly and, my thinking being what it is about small veins, I make no recommendation for our participation in this property.

Perhaps someone in your office could peruse the report in more detail and provide you with a different impression.

The report should be returned to me as soon as possible unless you find it more interesting than I did.

William M. Sirola.
