Dear Alex,

RE: COPPER MOUNTAIN PROPERTY, MIDWAY AREA

Further to our conversation this morning; I would like to obtain the airborne geophysical data covering our Copper Mt. property. This property is located in the northwestern corner of your survey area.

I have attached a claim map and a 1:50,000 scale topographic map to assist you with this request.

I appreciate your cooperation with this matter. Ultimately, Minnova will benefit from making this data available to me since I will utilize this information for orientating my geochemical soil sampling survey and future exploration programs. If my results are encouraging, then I will present the data to Minnova.

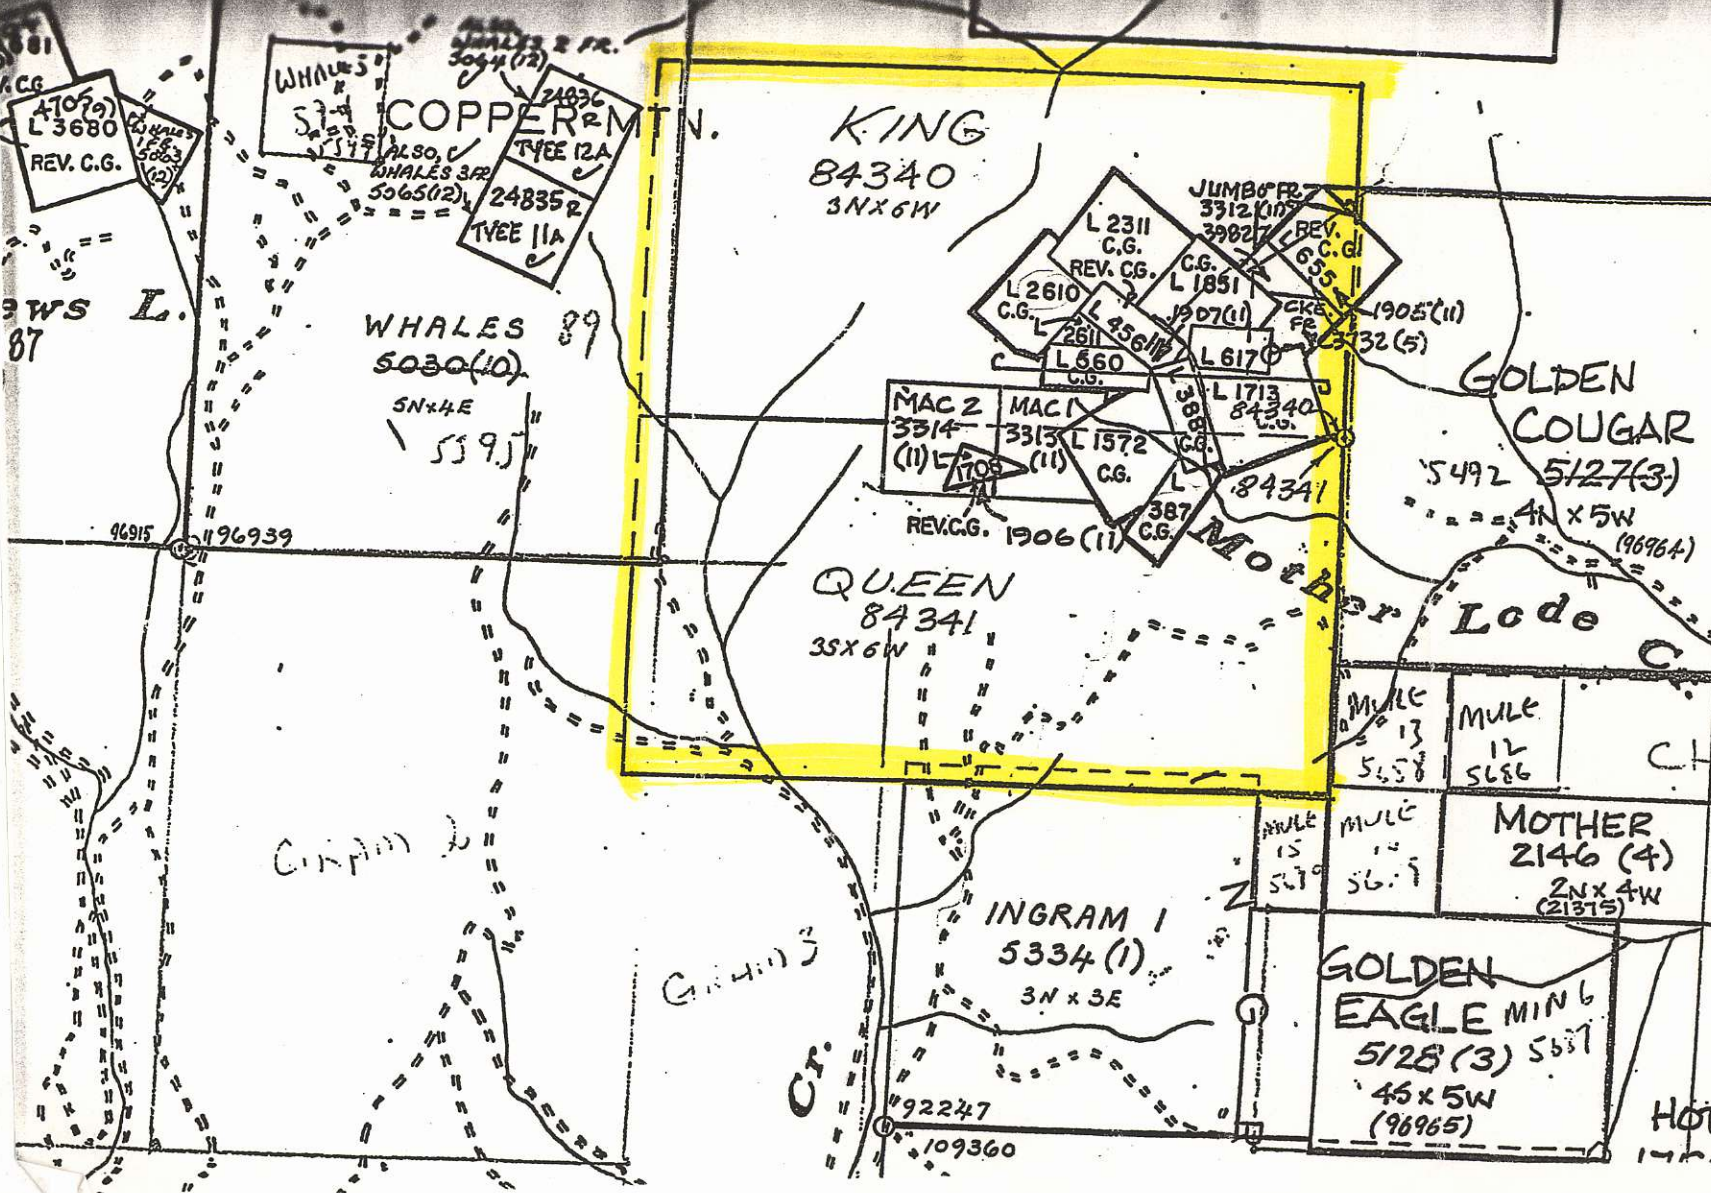

Sincerely,

Alex Boronowski

*I can - Alex Boronowski
 called with this
 request. I can't really
 think of a reason
 not to give him
 this data, as he
 says he will bring it
 to us anyway.
 He will call for
 an answer
 pls handle*
