Re: Surveying

Dave,

We located the cairn on the mountain you indicated but there is no survey pin. There is also no view of North Barriere Lake from the cairn, though a small part of the lake is visible from a point about 200 m south of the cairn, and there is excellent visibility to the Chu Chua property.

We did manage to locate a survey pin (Number 3794 ^A6043 (sic)) on the beach at North Barriere Lake Resort. There is good line of sight to points on the lake, but none to points in the area of the cairn. The people at North Barriere Lake Resort have given verbal approval to survey on their property should it be necessary.

~~John~~
