Re: Cat 1-4 Claims. Aspen grove.

Dear Jim:

Thank you for giving us the opportunity to look at the data on the Cat 1-4 claims at Aspen Grove. At the present time we feel that although the property has obvious exploration potential, it is not compatible with our current exploration philosophy. Nevertheless, we will gladly look at the property again (or any other ground you may have) if future results are encouraging.

I wish you all the best for your 1991 field season.

Yours Truly,

Dave Heberlein.
Sen. Project Geologist.
