Mr. Clint Hord,
2162 Naramata Road,
Penticton, B.C.

Dear Clint,

John Lund and I have reviewed all of the information you have supplied on the various properties held by McNeil Enterprises in the Penticton area, and thus far we have not managed to find one on which we could recommend a work program.

Our exploration is directed mainly toward the finding of large tonnage deposits rather than to vein deposits. There have been a few good veins in the province, but it becomes increasingly difficult to make a profit from a small underground operation.

Both John and I enjoyed very much making your acquaintance, and you have been most cooperative in showing us the various properties with which you are involved. All the best in your efforts.

We return herewith the various reports which you loaned us and the maps will be mailed under separate cover.

Yours sincerely,

WMS/jm
Encls.

W.M. Sirola.
