TEX, JUG and T&B CLAIMS,
Creston Area, East Kootenays, B.C. - 82F-1

October 21, 1971.

Samples from this property were provided by Clint Hord of Penticton, B.C., who is President of McNeil Enterprises, a private B.C. company.

Fifteen of these claims are owned by George Milburn and Peter Eskaw of Vancouver and eleven (?) claims are held by various owners in the Creston area.

The claims are located 10 miles east and 5 miles north of Creston on the Goat River. Mineralization consists of nickeliferous pyrrhotite and some chalcopyrite in diorite, but the extent of the mineralization is not known to us at the present time.

We contacted George Milburn who advised that the key claim is held by four separate owners and the remaining claims are not considered by Milburn to be worth working on.

To finalize this situation, we will attempt to determine from the office of the Mining Recorder just who does own the ground and see if there is any justification in further pursuit.
