

825122

Mar. 18/92.

NTS.

MC claim group - Nels Valle NTS 82 M/12.

- located S of Clearwater (10km).

- 94 units (8 claims + 8 expirations) expiry dates 1993-1995.

- geology - underlain by Fennell basalts + Eagle Bay felsics.

- 4 targets

A - SE corner of property - contact between Fennell basalts + underlying Eagle Bay rhy.

- graphitic + siliceous argillites at contact - up to 400m thick

- 3-4 strong, closely spaced, parallel Dighem conductors. - 1200m long x 250m wide. - tested with 6 holes totalling 630 m.

- holes intersected by black arg., pyritic rhyolites.

B - 2-3 point soil anomaly ^{Zn, Pb, Ag.} with VLF conductors. - says it's equivalent to Chulhua.

C = 1 point soil anomaly Zn, Ag. near VLF.

D = Zn, Ag anomaly over ≈ 1.6 km
