Mr. Mike Leask
M. Leask & Associate
c/o General Delivery
Cranbrook, B. C.

Dear Mike;

Please find attached three assays taken from your Rebar property in June. The first and third samples are from the first area visited while the middle sample is from the second area.

Although we believe the property has exploration potential we are unable to make an offer to participate at this time.

Thank you very much for bringing your Rebar property to our attention. Best of luck in your ventures.

Yours truly,

A. J. Davidson
Senior Exploration Geologist
