VICTORIA + ROY
CLAIMS
82E/4E

To: MINNOVA EXPLORATION VANCOUVER

From: Bob McTIERMAN - 495-2440 OS OF OS

Please find enclosed assay on a property consisting of two claims in the Oliver Area. I am doing the initial assay and ground work in locating interests in the property. There is an old incline and tunnel. There hasn't been anything done since 1945 - until 3 mos ago. Winter conditions will not hamper working at this property. It is just out of Oliver.

Regards
Bob McTierman
