Craig River  
Iskut River Area

Dear Dave;

Thanks very much for the presentation on the Craig River property that you gave Ian and I last week. I have had a chance to review A. Burgoyne's evaluation and there is no question that there are a number of interesting targets that require additional work. Unfortunately, at this time, we are unable to further pursue this property. However, if possible, we would like to be kept informed of any future results that you may obtain. As promised, I have enclosed A. Burgoyne's report. Thanks again for allowing us to review this project.

Yours sincerely,

Gary Wells  
Senior Project Geologist
