INTER-OFFICE CORRESPONDENCE

FROM R. Macrae

DATE June 5th, 1959

TO E. O. Chisholm

SUBJECT your letter 2nd June

MESSAGE

(TO BE COMPLETED IN TRIPLICATE)

Dear Ted:

I started a report on the work in the Lillooet E. area before I left Vancouver, and got mixed up on locations of certain of the soil samples. Graham will be here tonite and one of the things we will do before he goes into the Dease country will be a report on the Lillooet and Pitt R prospecting.

You should by now both the information form and the sketch and the assay report on the Bonanza group- VanKougnett's claims on the Bull R. Sent a copy of the assay results to Jim the same date.

The pozzalana at Prince George, I don't have any information about. MacIssac backed Jack Ryan when he secured a lease or series of leases on a pumice deposit 30 miles north-west of Pemberton on the PGE. Johnston National Storage officials put money in the deal. A survey of the lease locations was in progress last fall when some complications concerning the validity of the leases was discovered. The pumice has been known for a number of years and has been tested and found suitable for a light weight aggregate. Possibly Emil was talking about that, since pumice is classified in the building trades as a pozzulanic material.

Plan to run out the claim lines with Eric on the Tuya 1-4 cls when we move in to the Dease area. Lief, Eric's brother, thinks there is a long narrow fraction in the Cassiar claims, which is covered by The Tuya claims. He was on the showing last month, says he is not impressed by it.

Regards,

Rod

INSTRUCTIONS FOR USE OF THIS FORM

Form to be completed in triplicate by originator. Two copies — No. 1 and No. 2 — to be forwarded to addressee. Copy No. 3 to be retained in originator's file until reply received. Addressee to complete reply in duplicate on reverse side of sheets 1 and 2 and return No. 1 to originator. In following this procedure both parties have the complete message and reply on one sheet of paper.
