Dear Peter;

Thank you for your recent submission on your Hesquiat Lake gold-silver prospect. It certainly has some very interesting values and is well located. Unfortunately at this time Corporation Falconbridge Copper is already quite heavily committed to massive sulphide - gold exploration on Vancouver Island and these priorities preclude us participating in your project at this time.

However we would like to keep abreast of developments on the property and hope that you will keep us informed should any occur.

Thank you for your submission. Best wishes in your exploration.

Yours truly,

A. J. Davidson
Senior Exploration Geologist
