It is agreed between the sender of the message on the face of this form and this Company that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeatable telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cipher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate; and, in that case, the Company shall be liable for damages suffered by the sender to an extent not exceeding \$200.00, due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission and delivery of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent for any distance not exceeding 1,000 miles, and two per cent for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavour to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

To..... DR. PAUL KAVANAGH From..... WILLIAM SIROLA

Subject..... IRON PROSPECTS - PORT HARDY VACINITY Date..... JANUARY 20, 1961

I have just heard of a new iron prospect half an hour out of Port Hardy by truck and think that I should investigate this. The prospector claims to have found eighteen feet of massive magnetite thus far but has not covered most of the property. He also has another group on which he claims to have a width of one hundred and sixty (160) ft. of eighteen percent (18%) iron which I should look at as well. It would probably take one week to evaluate both.

Please advise if you agree. Regards.

WILLIAM SIROLA.
