MEMORANDUM

July 24th, 1958 TORONTO_

TO:

MR. W. S. ROW

FROM:

MR. G. M. RADISICS

SUBJECT:

PIONEER GOLD MINES LIMITED

W.S.R. R.J.B. H.A.P. R.D.S. E.L.D. J.I.K. E.C.J.

I have had an opportunity to see Dr. Howard James while he was passing through Toronto today, and in conversation he mentioned that a new ore bearing structure, as yet of undetermined dimensions, has been encountered at the Pioneer Mine in virgin territory, which has encouraging possibilities. If subsequent work will prove this ore shoot to be of the usual dimensions, Dr. James is hopeful that the life of the mine will be considerably extended.
