SUJET  
SUBJECT: POSTUK-FULTON OPTION - LINECUTTING

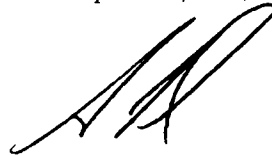

827431  
92B/13

While the old base line on the Nugget Creek property is useable the crosslines are difficult to follow and impossible to read. New lines will have to be cut and chained off the old baseline.

Twenty-eight kilometres of line are needed to cover the property at 100 m. spacing. An extra 3 kilometres will be cut to cover the Lenora and Tyee workings and the outcrops of the ore horizon.

Cost per kilometre cut, chained and picketed is \$350. Total cost of the contract will be \$11,550.00.

Other bids received were up to \$495/km.
