GENERAL INSTRUCTIONS.

1. Write nothing on the outside covers of the book.
 2. State for whom survey is made.
 3. If the land be held by purchase give date of application.
 4. If the land be held by pre-emption give number of date of record.
 5. Classify all lands held by purchase (or pre-emption) as required by subsection 2 of section 29 of the Land Act.
 - (a) The classification should be in the form of a table.
 - (b) The whole area must be accounted for.
 6. In surveys of mineral claims, give copy of record, date of location, from whom surveyed.
 7. Show situation of land surveyed by diagram on tracing linen (blue prints will not be accepted), and where no surveys exist the approximate position.
 8. You are particularly requested to follow the instructions given in the "Land Act," which provides for the method of survey and the manner of keeping field notes.
 9. Use plenty of paper. Do not cramp your notes. Do not write notes for more than 80 chains on one page, and always repeat the last station on the following page.
 10. Page the Field Book, and on the diagram insert the number of the page where the notes referring to each line surveyed may be found.
 11. Append a traverse table and balance it.
 12. In traverses, number the stations and show the bearings and distances on the diagram or plan in red.
 13. When the Field Book contains notes of surveys for more than one purchase or pre-emption, an index is to be furnished of the pages where the notes referring to each claim may be found.
 14. Mark on the plan the acreage of every claim surveyed, and the name of the owner thereof.
 15. Sew the leaves of the field book into the cover and trim off the edges of the paper.
- N. B.—Place your work in such a clear shape that the Draughtsman can check and plot the survey with the least loss of time.
