Ho Creek

Ho / Yeth creek.

m<sub>1</sub> / OW. check out camp site

prospecting.

GW 4T1 - 1 - shaly calcarenite  
 veinlet, with pyrite cutting  
 what maybe an altered  
 ultramafic.

- float sample.
- fuschite looking  
 speckles, generally  
 fine grain. Dark  
 appearance, minor  
 carbonate, rusty  
 brown weathered  
 appearance.

GW 4T1 - 2 - Bedded siltstone  
 with pyrite - quartz  
 vein. Very siliceous  
 (chert like?)  
 float.
